

"My Career Goals in Data Science"

- **Skills:**
 - Technical: Python, SQL, Machine Learning
 - Analytical: Problem-solving, Statistical Analysis
 - Communication: Storytelling with data, presentations
- **Passions:**
 - Applying data to solve real-world problems (e.g., healthcare or sustainability)
 - Continuous learning and innovation
 - Working with cross-functional teams
- **Values:**
 - Work-life balance
 - Opportunities for growth and mentorship
 - Making an impact in society
- **Opportunities:**
 - Data Analyst in a healthcare company
 - Machine Learning Engineer at a tech startup
 - Data Scientist at an environmental nonprofit
